

Data Mining

The final note is the weighted average of the TPs (30%) and the final project (70%)

- TPs
 - From the given TPs you have to submit **4 specific ones (without free choice)**
 - From the non mandatory ones you will get bonus
- Project
 - Your project will be the SOFAMEHACK challenge
 - The challenge will be opened the 1st of March
 - You can find some information on the web page of the challenge (<http://sofamehack2019.sofamea.org>)

Each TP consists of two parts: **Code + Report**

- You have to submit **both** of them, to count your submission as valid
- Code: generic, ready to use with a different dataset
- Report: explain the problem and discuss the results, summary of main findings - factual, clear, and concise

- Write your names both in the report and in the scripts.
- The report should be sent in **.pdf** format.
- Save your report and the submitted file using your last name and the number of the tp (example: Lavda_TP1.pdf)
